

School Resources and the Gender Literacy Gap in South African Schools

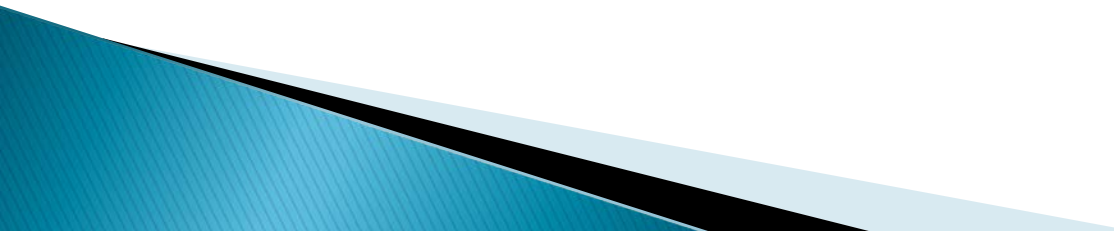

Tia Linda Zuze
4th October 2011

This document, not published by IIEP, is distributed with the authorization of the author and has been presented on the occasion of the IIEP Policy Forum on Gender Equality in Education held on the 3–4 October, 2011 in Paris, France.

The views and opinions expressed in this document are those of the author and do not necessarily represent the views of UNESCO or IIEP. The designations employed and the presentation of material throughout this document do not imply the expression of any opinion whatsoever on the part of UNESCO or IIEP concerning the legal status of any country, territory, city or area or its authorities, or concerning its frontiers or boundaries.

Introduction

- ▶ We estimate the relationship between resource inputs in South African primary schools and reading achievement of boys and girls.
 - ▶ Literacy linked to educational opportunities, well-being and democratic participation.
 - ▶ Literacy an indicator of economic development.
- 

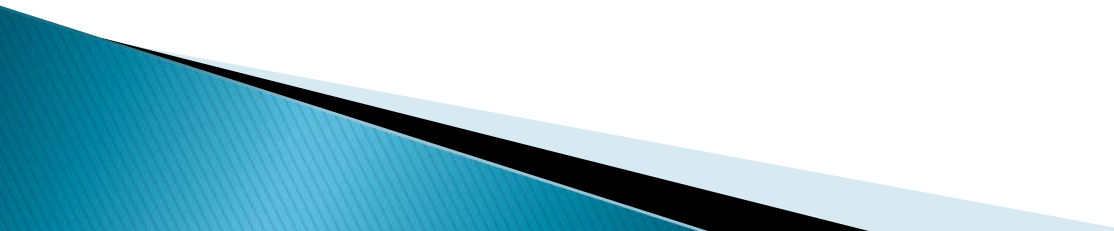

Introduction

- ▶ Analyse performance patterns for Grade 6 boys and girls in 2000 and 2007.
- ▶ Explanations for differences
 - Student individual background.
 - Schooling environment.

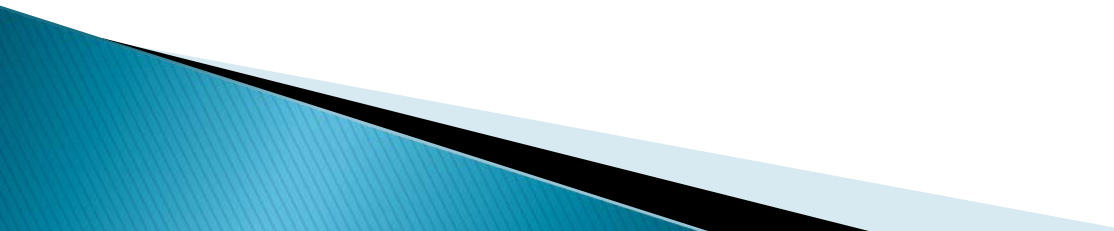

Gender, Education and Inequality in South Africa

- ▶ Transform the public education system to serve the poor.
- ▶ Quality of education varies greatly.
 - Under-resourced and poorly managed schools.
 - High quality schools for the elite.
- ▶ Focus on gender remains important.
 - May increase vulnerabilities of at-risk groups.
 - Major policy shifts in education.
 - Consequences of male underachievement far-reaching.

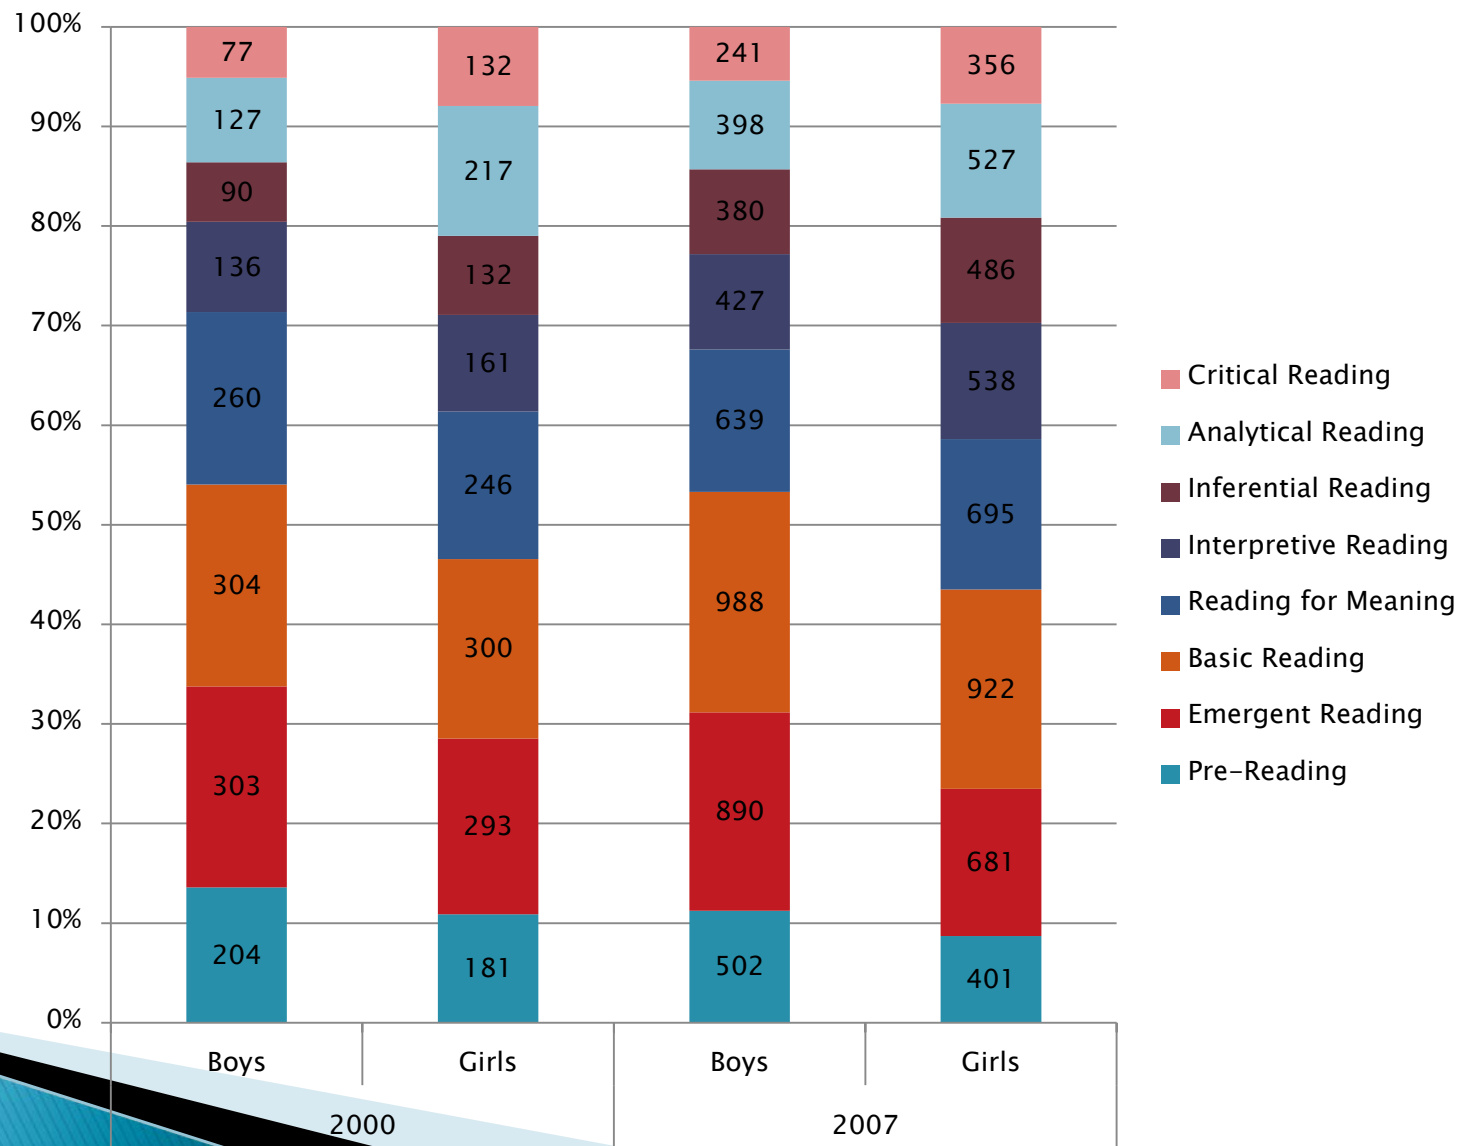

Key Issues from the Literature

- ▶ Internationally, gender-based differences in literacy tend to favour girls.
 - ▶ Across economic and cultural spectrum.
 - ▶ Explanations include biological, behavioural, societal and cultural.
 - ▶ South African boys more likely to repeat a grade and to drop out of school.
- 

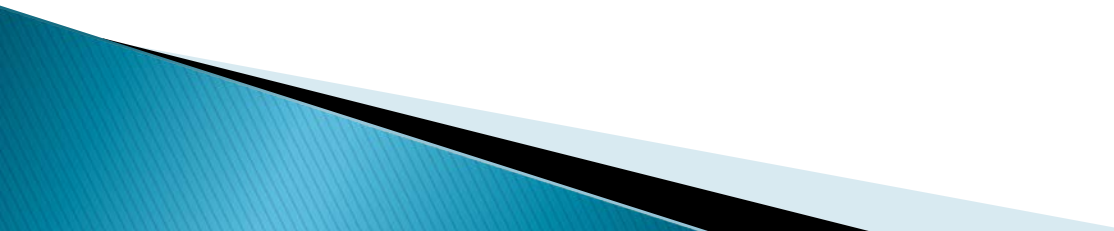

Key Issues from the Literature

- ▶ School facilities make more of a difference in developing countries.
 - ▶ Schools with better resources attract better teachers.
 - ▶ Lack of libraries and books in vernacular languages.
 - ▶ Confusion about how resources should be used and the role of teachers.
 - Traditional vs. progressive approaches and boys' reading skills development.
- 

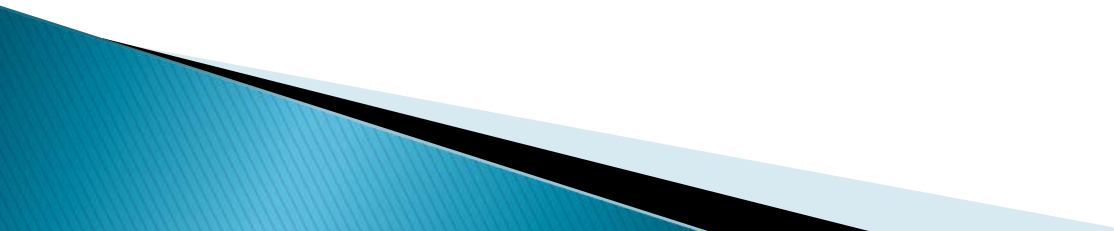

Literacy Levels of South African Boys and Girls

Results of Descriptive Analysis

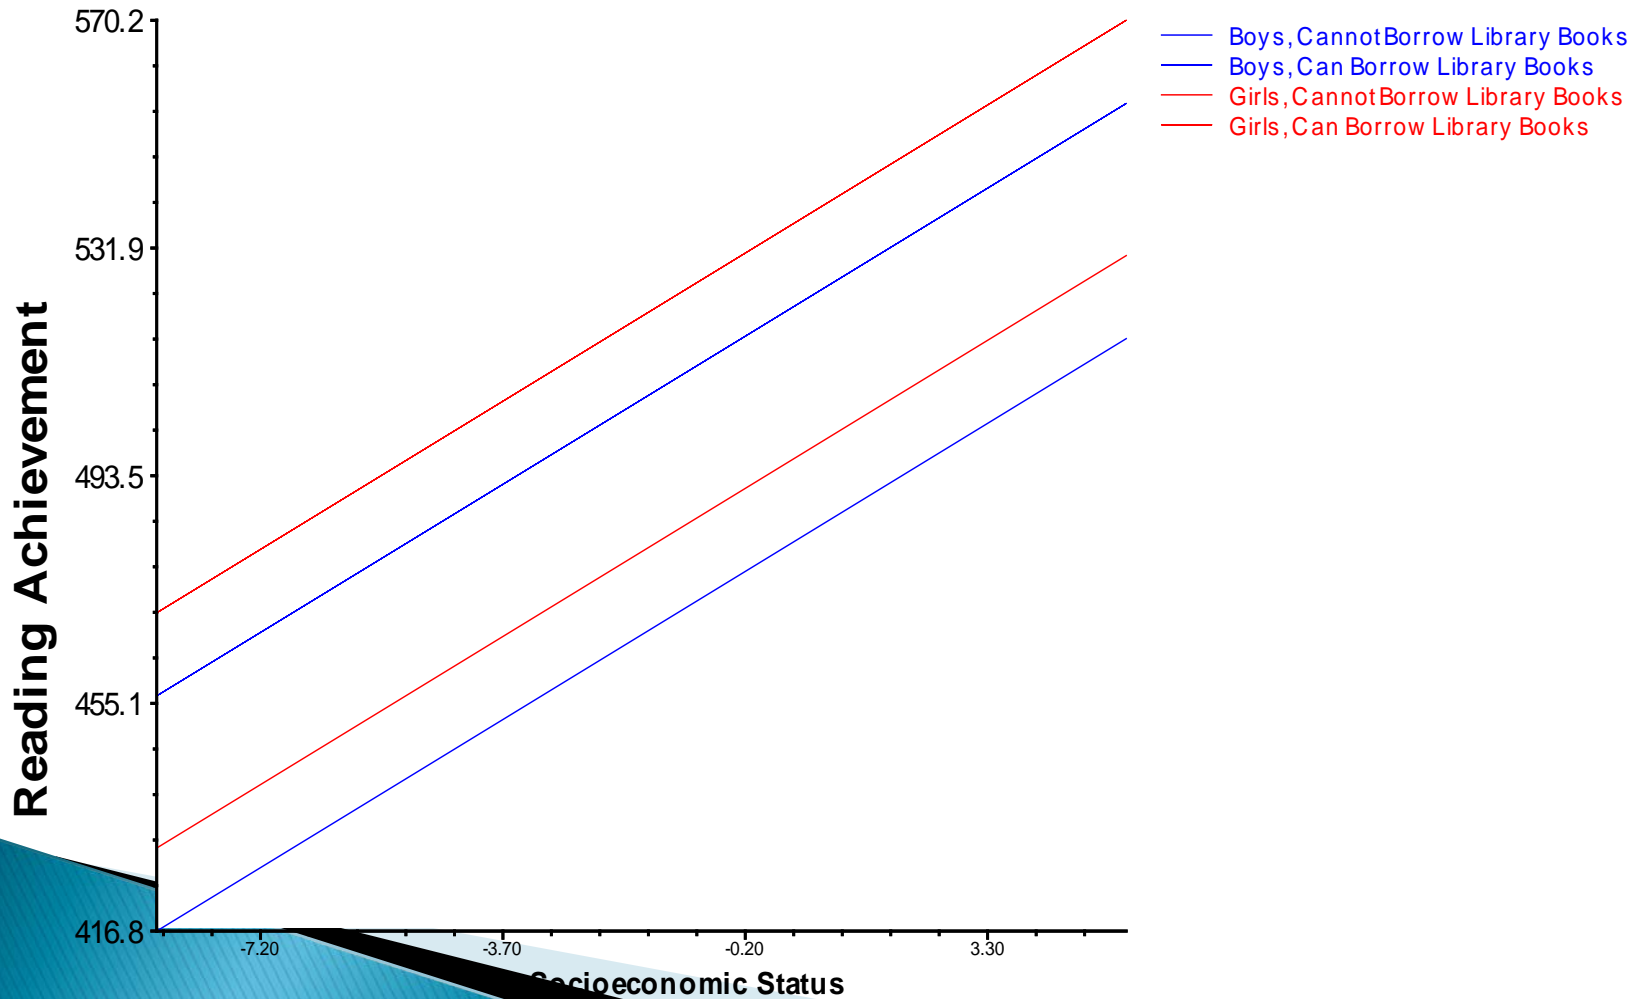

- ▶ More boys at the lower end of the ability spectrum.
 - ▶ Greater number of girls at the advanced levels.
 - ▶ Higher proportion of boys had repeated a Grade
 - ▶ Higher percentage of girls borrowing books from school library, owning a textbook and having homework corrected.
- 

Results of Regression Analysis

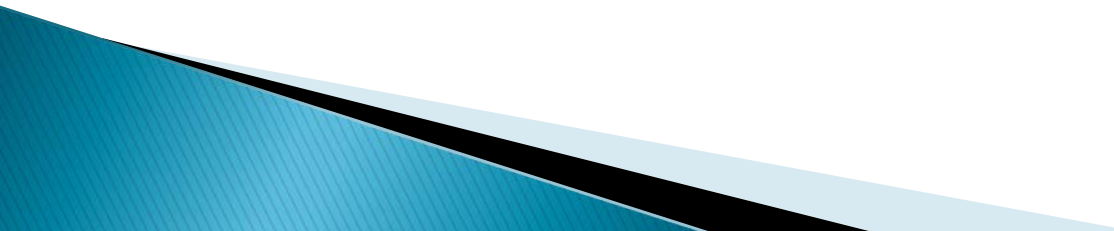

- ▶ On average, test scores of girls 13 and 23 points higher (2000 and 2007).
 - ▶ Higher socioeconomic status, speaking English at home, access to library facilities and support with homework related to higher reading scores for both boys and girls.
 - ▶ Grade repetition associated with a lower mean outcome for all students.
- 

Results of Regression Analysis

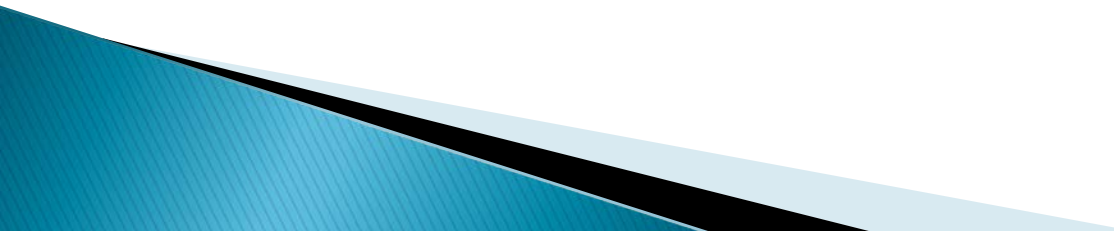

Results of Multilevel Model

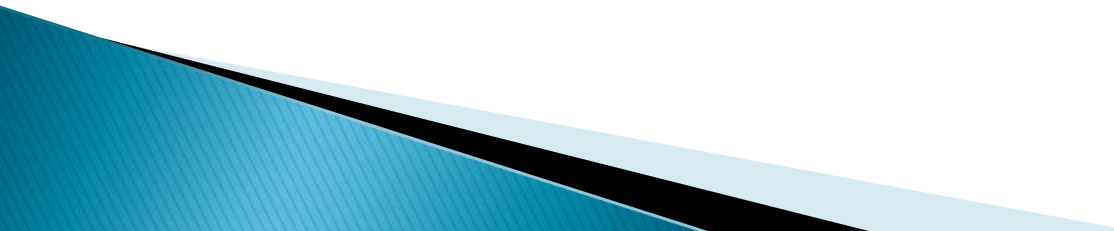

- ▶ Teacher experience, teacher tertiary education, school size little or no effect.
 - ▶ School resources and in-service teacher training related to higher reading scores.
 - ▶ Gender gap wider in resource-rich schools.
 - ▶ Consistent for the two periods.
 - ▶ Either type of resources better suited for girls or girls using resource more effectively to improve their literacy skills.
- 

Conclusion

- ▶ Gender gap favouring girls in reading significant and increasing with time.
 - ▶ Strong links between student reading skills, material resources and teacher training.
 - ▶ Reading scores higher among boys and girls who could borrow school library books (2007).
- 

Conclusion

- ▶ Physical resources especially important to girls – good news.
 - ▶ Better school facilities – better teachers – stronger academic culture
 - ▶ Girls more comfortable in learning-oriented environments.
 - ▶ Challenge – how to ensure resources invested so that benefits extend to boys' literacy education.
- 

THANK YOU
